MOLECULAR BIOLOGY
Volume 8, Numbers 1-6, 1974
(A translation of Molekulyarnaya Biologiya)

Volume 8, Number 1 January-February, 1974

	Engl.	Russ.
Biological Effects Associated with the Modification of Intraphage DNA with O-Methylhydroxylamine — M. L. Andronikova, G. A. Velikodvorskaya, F. Tkhruni, and T. I. Tikhonenko	1	3
Thermodynamic Investigations of Complexes of DNA with Cyanine Dyes — A. T. Karapetyan and V. I. Permogorov	9	12
The Structure of Deoxynucleoproteins. 5. The Distribution of Proteins along the Axis of the DNA Molecule — G. V. Gurskii, A. S. Zasedatelev, É. E. Minyat, Yu. V. Il'in, G. P. Georgiev, and M. V. Vol'kenshtein	14	18
The Interaction of Uranyl Acetate with DNA — I. D. Drynov, A. I. Poletaev, I. G. Kharitonenkov, and S. M. Klimenko	27	35
Structure and Molecular Weight of DNA of the Type II Actinophage of Actinomyces streptomycini — N. E. Glukhova, Z. M. Kochkina, Ya. I. Rautenshtein, and A. S. Tikhonenko	34	43
Investigation of the Lysozyme Macromolecule by a Spin-Labeling Method — G. I. Likhtenshein, Yu. D. Akhmedov, L. V. Ivanov, L. A. Krinitskaya, and Yu. V. Kokhanov	40	48
Investigation of the Structure of DNP in Solutions of Different Ionic Strengths by the Low-Angle X-Ray Scatter Method — V. I. Aleksanyan, B. A. Fedorov, and V. I. Vorob'ev	49	59
A Spectrophotometric Study of the Interaction of Deoxyribonucleoproteins with the Acriflavine—Phosphotungstic Acid Complex — G. Ya. Kolomiitseva, M. A. Chepyzheva, and V. A. Kadykov	54	66
Reaction of DNA with Girard's Reagent P: Kinetics of the Reaction and Resistance of the Product to Some Nucleases — S. N. Zagrebel'nyi, D. G. Knorre, and S. D. Myzina	60	74
A Study of Nucleus—Cytoplasm Interrelationships in a Cell-Free System with Isolated Rat Liver Nuclei — G. A. Dvorkin, V. F. Efimova, and L. I. Koganitskaya	64	78
Depsipeptide Modification as a Method of Determining the Contribution of Intramolecular Hydrogen Bonds to the Conformational Stability of Peptides (Gramicidin S) — A. L. Zhuze, G. A. Kogan, N. A. Krit, T. M. Andronova, M. P. Filatova, L. B. Senyavina, E. A. Meshcheryakova, I. D. Ryabova, G. A. Ravdel', and L. A. Shchukina	69	84
Properties of the Enzyme as a Polar Medium and Their Role in the Mechanism of the Enzymatic Process — L. I. Krishtalik	75	91
Macromolecular Structure of the DNA of Bacillus Bacteriophages — V. A. Polkhovskii	82	100
The DNA-Synthesizing System of Isolated Mitochondria of Unfertilized Loach Eggs and Its Artificial Activation in Vitro by the Antibiotic Bruneomycin — V. S. Mikhailov and G. G. Gauze	88	108

Effects of pH on the State and Functional Properties of Chlorophyll and Related Compounds in Systems with Serum Albumin — V. D. Semichaevskii and G. I. Lozovaya 96 119
Two Types of Spin-Labels and Their Interaction with Phospholipid Micelles and Mitochondrial Enzymes — V. M. Chumakov, L. S. Yaguzhinskii, V. I. Panin, L. A. Krinitskaya, V. P. Ivanov, É. G. Rozantsev, and A. É. Kalmanson 102 127
The Elementary Transcription Particles of the Inner Mitochondrial Membrane — T. B. Kazakova and M. P. Mel'nikova 107 133
Nature of the Interaction of Detergents with Polypeptides and Synthetic Polyelectrolytes — M. M. Fel'dshtein and A. B. Zezin 114 142
Production of Apoenzymes of Serine Sulfhydrase and Cystathionine-β-Synthase and Their Interaction with Pyridoxal-5'-Phosphate and Its Analogs — L. L. Efremova, V. L. Florent'ev, and E. V. Goryachenkova 123 154

Volume 8, Number 2 March-April, 1974

Errors in DNA Replication in Bacteria in the Presence of a Thymidylic Acid Deficiency — S. K. Bresler, L. G. Vyacheslavov, and M. I. Mosevitskii 133 171
Calculation of the Regular β-Structure of Polypeptides and Freedom of Internal Rotation in the Planar Antiparallel β Structure — V. I. Aleksanyan and A. M. Skvortsov 142 182
Nuclear Particles Containing Messenger RNA. II. Nuclear Particles Containing Virus-Specific RNA in FL Cells Infected with Type 5 Adenovirus — E. S. Zalmanzon, L. Komaromi, L. N. Mikhailova, and E. M. Lukanidin 150 193
An Investigation of the Interaction of Steroids with Human Serum Albumin by the Spin-Label Method — P. V. Sergeev, T. I. Ul'yankina, R. D. Seifulla, Yu. B. Grebenshchikov, and G. I. Likhtenshtein 162 206
Conformation of Synthetic Polypeptides in Complexes with Ionogenic Surfactants — M. M. Fel'dshtein, A. B. Zezin, and V. A. Kabanov 171 218
Biophysical and Biochemical Properties of Type B Oncorna Viruses Isolated from Continuous Human Cell Cultures — V. M. Zhdanov, A. G. Bukrinskaya, K. V. Il'in, G. G. Miller, I. S. Irlin, and A. F. Bykovskii 178 227
Reactivity of Some Guanosine Residues of Yeast $tRNA_1^{Val}$, Its Halves, and Their Complex — V. V. Vlasov and D. G. Knorre 184 234
Kinetic Analysis of the Generalized Monod—Wyman—Changeux Model — B. I. Kurganov 193 244
Electrostatic Effects in the Interaction of Polyuridylic Acid with N-(2,2,6,6-Tetramethyl-1-oxylpiperidin-4-yl)-N'-[β-(4-methylmorpholinio)ethyl]-carbodiimide · — M. A. Grachev, D. G. Knorre, and T. A. Chimitova 200 253
Substrate Specificity of the Synthetic Function of Ribonuclease from Penicillium claviforme and Structure of the Phosphate Acceptor — V. I. Gulyaeva, Z. N. Bagdasaryan, S. I. Bezborodova, and S. M. Zhenodarova 207 261
The Structure of Nuclear Pre-mRNAs. V. Double-Stranded Regions in Giant Pre-mRNA — A. P. Ryskov, G. F. Saunders, V. R. Farashyan, and G. P. Georgiev 212 266
Effects of Products of the Reaction of Formaldehyde and Amino Acids on Nucleotides and DNA — Yu. A. Semin, E. N. Kolomyitseva, and A. M. Poverennyi 220 276
Modification of Ribonuclease A with Pyridoxal-5'-Phosphate — S. N. Borisova, V. I. Matrosov, S. V. Shlyapnikov, and M. Ya. Karpeiskii 228 286
Investigation of Electron Transport in Chloroplasts and Their Fragments by the ESR Method. I. Electron Transport and Kinetic Characteristics of the Light-Induced ESR Signal — Z. P. Gribova, B. S. Marinov, E. A. Akulova, E. N. Muzafarov, and V. S. Kasatkina 237 296

An Investigation of rRNA and Synthetic Polyribonucleotides by the Spin-Label Method — S. K. Zavriev, G. L. Grigoryan, P. A. Karmanov, G. A. Rtveliashvili, and É. G. Rozantsev 242 302
Curvature of the Protein Chain in Irregular Regions — A. K. Kron 249 310

CHRONICLES
Conformational Changes of Biopolymers in Solution — G. M. Mrevlishvili 252 314

Volume 8, Number 3 May-June, 1974

Molecular Biology in the USSR on the Eve of the 250th Anniversary of the Founding of the Academy of Sciences of the USSR 257 323
Models of the Quaternary Structure of Collagenase — A. G. Sukhomudrenko, N. I. Solov'eva, N. I. Smirnov, and Yu. A. Lazarev 259 325
Nuclear Magnetic Resonance of Nucleotide Amides. Structure of the Intramolecular Complex of Adenylyl-(5'→ N)-p-anisidine — S. V. Zenin, B. V. Tyagolov, G. B. Sergeev, Z. A. Shabarova, and M. A. Prokof'ev 264 331
Relationship between the Nature of the Nucleotide Sequence and the Degree of Asymmetry of the Complementary Strands of DNA in Microorganisms — A. L. Mazin and B. F. Vanyushin 271 340
Kinetics and Mechanism of Complex Formation with the Active Sites of α-Chymotrypsin of the Intermediate Particle of the Photochromic Transformation of 2-(2', 4'-Dinitrobenzyl)-pyridine — S. D. Barfolomeev, K. Martinek, and I. V. Berezin 277 347
Complementation of Pentaadenylyladenosine and Alkylating Derivatives of Oligoadenylyladenosines with Ribosomal RNA — N. I. Grineva, G. G. Karpova, and G. G. Shamovskii 286 358
Hybridization of Giant Molecules of Pigeon Erythroblast RNA with Repeating and Unique Nucleotide Sequences of DNA — K. G. Gazaryan, V. Z. Tarantul, Yu. N. Baranov, and V. A. Lipasova 297 371
Kinetic Scheme and Kinetic Parameters of the Exchange of ATP—^{32}P-Pyrophosphate, Catalyzed by Tryptophanyl—tRNA Synthetase from Beef Pancreas — V. V. Zinov'ev, L. L. Kiselev, D. G. Knorre, L. L. Kochkina, É. G. Malygin, M. G. Slin'ko, V. I. Timoshenko, and O. O. Favorova 303 380
Amino Acid Esters of 2'-O-Methyladenosine—Peptide Acceptors in the Ribosome. The Role of 2'-Hydroxyl — M. K. Kukhanova, V. A. Pozdnyakov, L. V. Nikolaeva, A. A. Kraevskii, Yu. V. Mitin, and B. P. Gottikh 311 389
Compact Form of DNA in Solution. I. Features of the Absorption Spectra of Polyribonucleotides and DNA in Aqueous Salt Solutions Containing Polyethyleneglycol — Yu. M. Evdokimov, N. M. Akimenko, N. E. Glukhova, and Ya. M. Varshavskii 317 396
Functional Significance and Location of Cysteine Residues in the Molecule of Aspartate Aminotransferase — V. V. Nosikov, E. V. Grishin, S. M. Deev, O. L. Polyanovskii, A. E. Braunshtein, and Yu. A. Ovchinnikov 326 406
Structure of the Chromosomal Deoxyribonucleoproteins. VI. Redistribution of Histones during Salt Treatment of the Chromatin — A. Ya. Varshavskii and Yu. V. Il'in 334 416
Model of the Internal Organization of RNA and Protein in the Ribosomes — A. P. Potapov and A. A. Bogdanov 341 425
Kinetics of the Proteolysis of Aspartate Aminotransferase in Various States of the Active Site — A. A. Makarov, V. I. Ivanov, and M. V. Vol'kenshtein 347 433
A Study of the Conformational States of Aspartate Aminotransferase by Perturbation Spectrophotometry. I. The Change in the Accessibility of the Coenzyme during the Enzymatic Reaction — A. L. Bocharov, G. A. Kogan, and M. Ya. Karpeiskii .. 355 443

A Study of the Mechanism of Translocation in Ribosomes. III. Influence of the Alkylation of the SH Groups of the Proteins of the Ribosomal 30S Subparticle on "Nonenzymatic" Translocation in the Ribosomes of Escherichia coli — L. P. Gavrilova, O. É. Kostyashkina, and Yu. A. Rachkus 362 452
Determination of the Quantum Yield of the Primary Process of Energy Transformation in Photosynthesis. I. Basis of a Method for Various Types of Organization of the Photosynthetic Units — A. Yu. Borisov, V. I. Godik, and Z. G. Fetisova 367 458
Matrix Activity of the X Chromosomes of Male and Female Drosophilas in the Synthesis of RNA by Bacterial RNA-Polymerase — B. A. Leibovich and R. B. Khesin 374 467
An Investigation of the Conformational Mobility of the Active Center of D-Glyceraldehyde 3-Phosphate Dehydrogenase — D. S. Markovich, G. B. Krapivinskii, and N. F. Neznaiko 382 475

Volume 8, Number 4 July-August, 1974

The Interaction of Histones with Native and Denatured DNA — S. R. Umanskii, B. A. Korol', E. G. Piker, and Yu. N. Runova 393 491
Kinetic Studies on the Depolymerization of Polyadenylic Acid by Ribonuclease A — Z. V. Avramova, S. M. Dudkin, and L. V. Karabashyan 401 501
Renaturation of DNA from Ultrasonically Fragmented Chromatin — I. P. Ashmarin, N. A. Fedorova, and E. G. Karpukhina 406 507
An X-Ray Diffraction Study of Ribosome Structure — A. D. Dolgov, D. A. Ivanov, K. A. Kapitonova, and M. A. Mokul'skii 410 513
Kinetic Behavior of Associating Enzyme Systems of the Type $M \rightleftharpoons M_2 \rightleftharpoons M_3 \rightleftharpoons \ldots$ and of the Type $2M \rightleftharpoons D \rightleftharpoons D_2 \rightleftharpoons D_3 \ldots$ — B. I. Kurganov 419 525
The Structure of Hydrophobic Cores of Globins — S. A. Kozitsyn and O. B. Ptitsyn 427 536
Investigation of Electron Transport in the Chloroplasts and Their Fragments by the ESR Method. II. Light-Induced Interaction of Water-Soluble Nitroxide Radical with Chloroplasts and Chlorophyll Containing Protein—Lipid Micelles — B. S. Marinov, E. A. Akulova, Z. P. Gribova, and E. N. Muzafarov 434 543
The Formation of a Complex between the Membrane Structures of the Mitochondria and DNA of Nonmitochondrial Origin — T. B. Kazakova and M. P. Mel'nikova 439 550
The Presence of an Endonuclease Acting on UV-Irradiated and Depurinized DNA in Cells of Micrococcus lysodeikticus — N. V. Tomilin 444 557
A Study of the Mechanism of Action of Phosphorylase B Using Isotope-Labeled Substrates — L. M. Firsov, T. I. Bogacheva, and S. E. Bresler 454 569
Bouyant Density of the DNA of Sea Urchin Embryos at Different Stages of Development — S. N. Borkhsenius, L. I. Andreeva, and V. I. Vorob'ev 461 577
A Study of the Interaction of Oligonucleotides with Polynucleotides by the Method of Equilibrium Gel Filtration. The Effect of Magnesium Ions and the Composition of the Oligonucleotides on the Stability of the Complex — V. M. Chernaenko and S. E. Bresler 467 585
Dependence of Noncovalent Interactions of Benzene and Adenine Rings on Distance between them in Adenyl-(5' → N)-ω-Arylalkylamines — B. V. Tyaglov, S. V. Zenin, E. S. Gromova, G. B. Sergeev, Z. A. Shabarova, and M. A. Prokof'ev 475 595
Diffuse Scattering of X Rays by Polypeptides and Proteins in Solution. III. Analysis of Scattering Curves of Sperm Whale Myoglobin — L. A. Voronin and B. A. Fedorov. 481 603
Protein Biosynthesis in a Homologous, Cell-Free System in the Presence of Chick Embryo RNA Isolated from Free and Membrane-Bound Polyribosomes — G. L. Kogan and V. I. Mazurov 486 609
Investigation of the Conformational Lability of Serum Albumin Macromolecules in Aqueous Solution by the NMR Spin-Echo Method — S. I. Aksenov and O. A. Kharchuk 494 619

Engl./Russ.

Structure of Nuclear Pre-mRNA. VI. "Reversed Repeats" in Animal DNA and Their Hybridization with Double-Stranded Regions of Pre-mRNA — R. B. Church, A. P. Ryskov, and G. P. Georgiev 503 631

Volume 8, Number 5 September-October, 1974

Study of the Template Activity of Pyrimidine Deoxyribonucleoproteins in the RNA Polymerase System of E. coli — L. Ya. Denisova, S. N. Zagrebel'nyi, and N. M. Pustoshilova 511 643

Investigation of the Spectral and Photochemical Effects of Denaturation of Allophycocyanin of Blue-Green Algae — L. G. Erokhina and A. A. Krasnovskii 517 651

Origin of Mitochondrial RNA of Animal Tissue. III. Occurrence of Transcripts from Highly Reiterated Sequences of the Nuclear Genome in Rat Liver Mitochondria — V. S. Gaitskhoki and O. I. Kiselev 524 660

Photochemiluminescence of Chlorophyll in Aqueous Solutions of Detergents — A. A. Krasnovskii, Jr. and M. G. Shaposhnikova 529 666

Study of the Topography of the ATPase Center of Nitrogenase by Fluorescence Labeling — E. Ya. Alfimova, L. A. Syrtsova, T. N. Pisarskaya, and G. I. Likhtenshtein 537 676

Detection of Escherichia coli Polysomes Synthesizing Alkaline Phosphatase — A. N. Rekesh, L. F. Lideman, T. N. Zavenyagina, and V. Yu. Gavrilov 545 686

Diffuse Scattering of X Rays by Polypeptides and Proteins in Solution. IV. Consideration of Effect of Solvent for Solutions of Globular Proteins — B. A. Fedorov, O. B. Ptitsyn, and L. A. Voronin 551 693

Investigation of Nuclear DNA-Like RNAs by Ion-Exchange Chromatography on Methylated Albumin-Kieselguhr — A. V. Likhtenshtein, V. M. Kartoshkin, E. G. Piker, and V. S. Shapot 559 703

Temperature Changes in the Structure of the Adsorbed Water in Collagen — V. V. Ivanov, N. V. Ratnikova, and Yu. A. Vasin 565 711

The Role of Enolization of Pyruvate in the Formation of a Nonproductive Triple Complex Lactate Dehydrogenase—NAD—Pyruvate — N. P. Sugrobova, B. I. Kurganov, and V. A. Yakovlev 569 716

Binding of Tetranucleotides to the 5S RNA from the Rat Liver — M. B. Sēēt, M. Yu. Saarma, R. L.-É. Villems, A. Ya. Lind, and S. K. Vasilenko 575 723

Tryptophanyl-tRNA Synthetase. Isolation and Characterization of Two Forms of the Enzyme — O. O. Favorova, L. L. Kochkina, M. Shaigo, A. V. Parin, S. N. Khil'ko, V. S. Prasolov, and L. L. Kiselev 580 729

Study of the Structure and Interaction of the Components of Tobacco Mosaic Virus by the Methods of Circular Dichroism and UV Spectrophotometry — T. P. Lanina, L. G. Tyul'kina, R. K. Ledneva, and A. A. Bogdanov 591 742

Intramolecular Addressed Alkylation of 2',3'-O-[4-(Chloroethylmethylamino)-Benzylidene]-tRNA — V. V. Vlasov, N. I. Grineva, and G. G. Karpova 599 752

A Study of the Conformational States of Aspartate Aminotransferase by Perturbation Spectrophotometry. II. The Perturbation of the UV Spectra of the Protein in the Region of Absorption of Aromatic Amino Acids under the Influence of Ethylene Glycol and the Coenzyme — G. A. Kogan, A. L. Bocharov, and M. Ya. Karpeiskii .. 607 762

Ion-Dependent Conformational Transitions in Membrane Preparations of Transport ATPase — L. M. Raikhman and Yu. Sh. Moshkovskii 612 768

Study of Conformational Transitions within the Double-Stranded State of Spin-Labeled DNA — S. K. Zavriev, G. L. Grigoryan, L. E. Minchenkova, and V. I. Ivanov . 618 775

Kinetic Manifestations of Conformational Changes in Enzymes — B. N. Gol'dshtein, M. A. Livshits, and M. V. Vol'kenshtein 625 784

Kinetic Evidence for Slow Conformational Changes in Pig Muscle Lactate Dehydrogenase — E. I. Shchors, N. I. Kalacheva, N. I. Mal'tsev, V. A. Yakovlev, B. N. Gol'dshtein, and M. V. Vol'kenshtein 632 792

Volume 8, Number 6 November-December, 1974

Controlled Fragmentation of DNA. Communication I. Acentric Hydrodynamic Cleavage and the Possibility of Isolation of Genetic Linkage Groups of Phage T5 — V. I. Tanyashin, N. I. Matvienko, A. S. Solonin, L. P. Tikhomirova, I. Fodor, and A. A. Baev 639 803

Distances between Iminoxyl Radicals in Antibody Binding Sites and the Relative Freedom of Rotation of Antibody Subunits — A. I. Kyaivyaryainen, R. S. Nezlin, and M. V. Vol'kenstein 650 816

Estimation of the Distance between the ATPase and Substrate-Binding Sites in Nitrogenase by the NMR-^{1}H Method — L. A. Syrtsova, G. I. Likhtenshtein, T. N. Pisarskaya, V. L. Berdinskii, V. P. Lezina, and A. U. Stepanyants 656 824

Complementarily Addressed Alkylation of Ribosomal RNA by Alkylating Derivatives of Oligonucleotides — N. I. Grineva and G. G. Karpova 663 832

A Short Procedure for the Isolation of E. coli RNA Polymerase — A. G. Malygin and E. D. Sverdlov 673 845

The Distance between Genes of Bacteriophage T4D Determined by the Time of Their Joint Transport to the Cell — M. I. Mekshenkov and T. M. Seregina 677 850

On the Nature of the Slow Conformational Changes in Enzymes — D. S. Markovich and G. B. Krapivinskii 682 857

Study of Long-Lived Nuclear RNA of Avian Erythroid Cells — V. Z. Tarantul, V. A. Lipasova, Yu. N. Baranov, and K. G. Gazaryan 688 864

Investigation of Tyramine Oxidase with the Aid of Structural Analogs of Flavin Adenine Dinucleotide — L. V. Tat'yanenko, T. A. Shapiro, V. A. Yakovlev, V. Z. Gorkin, E. D. Khomutova, A. P. Pivovarov, R. I. Gvozdev, and O. I. Lebedeva 694 871

Interaction of α-Chymotrypsin with Tripeptide Substrates and Inhibitors — E. D. D'yachenko, L. I. Volkova, L. V. Kozlov, and V. K. Antonov 701 879

A Study of the Dynamic Structure of Human Serum Albumin by the Spin Probe Method — E. N. Frolov, N. V. Kharakhonycheva, and G. I. Likhtenshtein 707 886

RNA–Protein Interactions in Bacterial Ribosomes. Communication III. Secondary Structure of 16S RNA Fragments Interacting with Protein S4 — N. V. Chichkova, G. V. Rezapkin, N. L. Teterina, and A. A. Bogdanov 713 894

Theoretical Analysis of the Conformations of the Methylamides of N-Acetyl-L-glutamic Acid and N-Acetyl-L-glutamine — G. M. Lipkind, S. F. Arkhipova, V. N. Budkovskaya, and E. M. Popov 719 902

Study of the Release of Rapidly Labeled RNA from Isolated Rat Liver Nuclei in a Cell-Free System — N. G. Shchuppe, E. G. Rozet, and L. F. Panchenko 728 913

The Use of Tritium—Hydrogen Exchange at $C_{(8)}$ in Purines for the Preparation of Labeled Oligodeoxyribonucleotides — V. L. Drutsa, N. I. Sokolova, and Z. A. Shabarova 734 921

Determination of the Quantum Yield of the Primary Transformation of Energy in Photosynthesis — Communication II. Treatment by Two Variants of the Method — E. L. Barskii, A. Yu. Borisov, V. I. Godik, and M. D. Il'ina 739 927

Metabolic Characteristics of Poly(A)-Containing mRNA from Liver Cells — O. V. Podobed, E. V. Brykina, O. Yu. Abakumova, T. V. Chernovskaya, and M. I. Lerman 746 936

Chemical Approach to the Study of Stacking Interactions. Communication I. Stacking Interactions in Cytidine-Containing Dinucleotides — E. D. Sverdlov, L. I. Gus'kova, N. E. Broude, and É. I. Budovskii 753 944
